

TECH 8 - Advanced Machines and Tours

Written By: Richard Lee Logan Torres

TECH 8 Deliverables

Step 1 — Key Takeaways

- 🏆 Congratulations! By now, you have all the training you need to be considered a technician in the AFL!
- Take care to know all of the materials available for each machine, and the machine's limitations
- This is very useful for customers who know WHAT they want, but not HOW to make it
- ⚠️ Bridging that gap for customers is one of the most important parts of being a fully-fledged technician
- Being able to give thorough and engaging tours naturally follows this

Step 2 — Learn

- Walk through the lab with a tech or above as they give you a mock tour.

Step 3 — Deliverables

- Give a tour to a TS or above.
- Schedule a PDM with an AFL LC.

Step 4 — Quiz

⚠ Answer these questions as if you were speaking to a high school senior- in many instances during tours, you will be!
