Powering On

This guide gives instructions on powering on the machine.

Written By: Thomas James Rotello
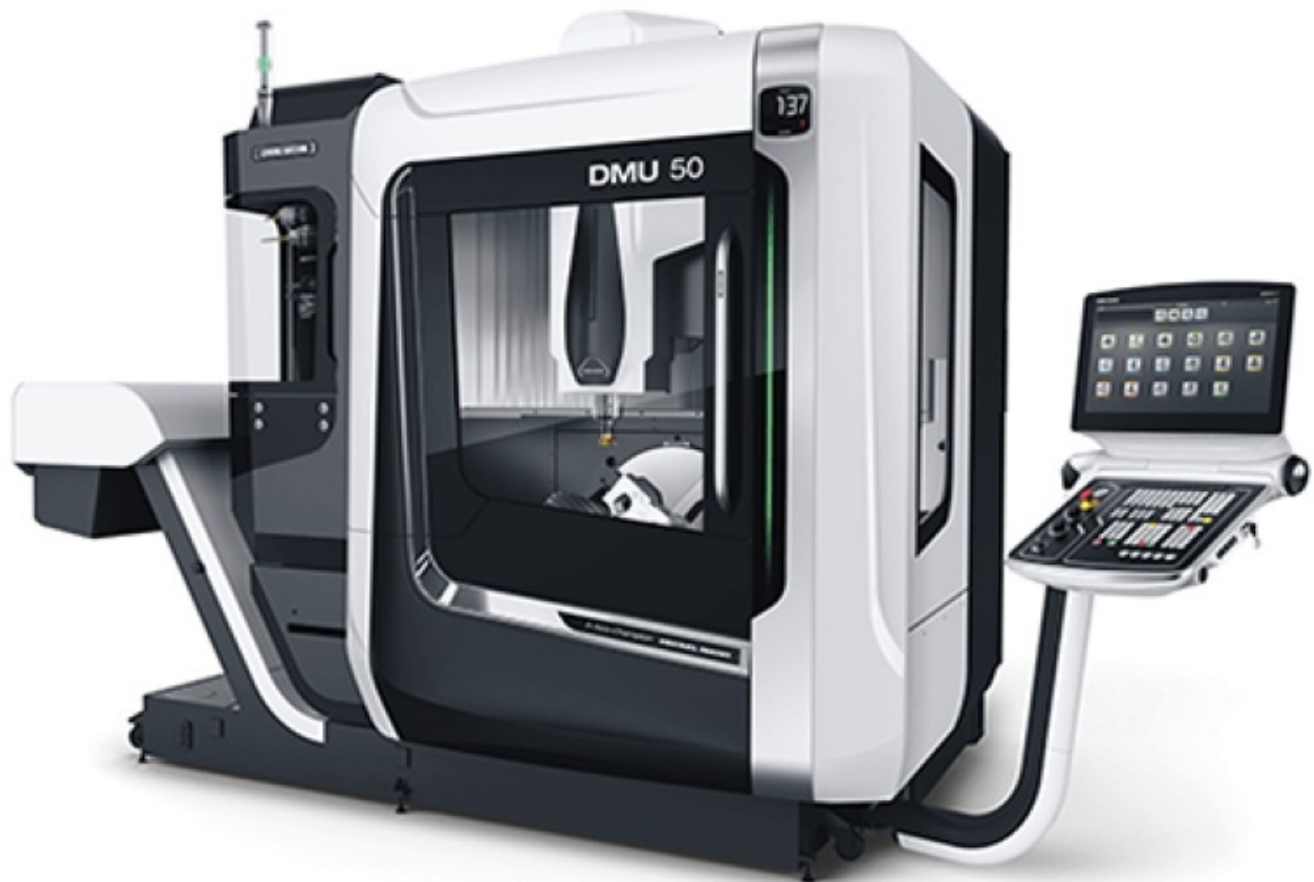

Step 1 — Powering on

- Turn the main power on to the machine.

- Turn the work light on.

- Disengage the E-Stops. One is located on the main control and the other on the hand control.

- Press the power button.
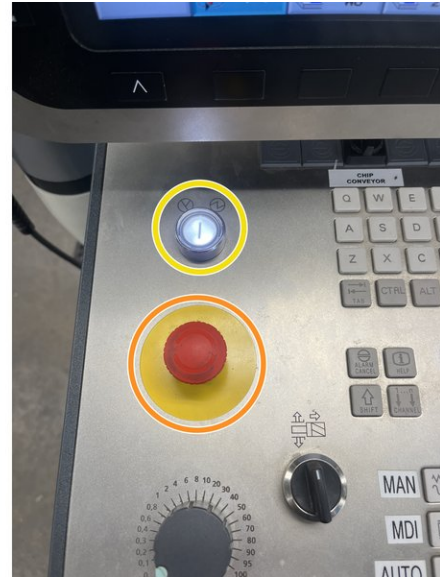

Step 2 — Execute Safety Stop Test

- Lock the door and unlock the door. The safety test will automatically begin and cycle through.
